

Smarty HRU

are one of the most reliable residential units in Europe!

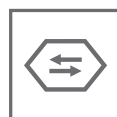

www.salda.lt

 **SALDA**

SALDA UAB continues its strategy to be one of the most reliable manufacturers of ventilation units in the Europe. Therefore, only components from the leading EU brands are used in production of air handling units. Also the most modern ventilation equipment laboratory in Central Europe was established in SALDA. From 2013 AmberAir range (modular and compact AHU) was certified by Eurovent Certita Certification.

For the certification purposes units were tested in an external laboratory as well. Experts from Eurovent Certification perform annual audits including factory visits.

Now range of residential heat recovery ventilation units Smarty is also certified by Eurovent Certita Certification.

HRU with counterflow heat exchanger

All the certified data of counterflow units are available at: <https://www.eurovent-certification.com>

Model	Internal Leakage class	Max. airflow at 100 Pa, m ³ /s	Reference airflow at 50 Pa m ³ /s	SPI, W/(m ³ /h)	Temp. ratio, %	Lw Casing, dBA	Energy efficiency (Ecodesing)	AHS Average, kWh/y
Smarty 3X P	A1	0.11	0.08	0.28	85.0	45	A	4447
Smarty 2X P	A1	0.06	0.04	0.34	86.4	49	A	4489
Smarty 2X V	A1	0.05	0.04	0.31	90.4	51	A	4610
Smarty 3X V	A1	0.11	0.08	0.26	86.9	50	A	4505

HRU with rotary heat exchanger

All the certified data of rotary units are available at: <https://www.eurovent-certification.com>

Model	Internal Leakage class	Max. airflow at 100 Pa, m ³ /s	Reference airflow at 50 Pa m ³ /s	SPI, W/(m ³ /h)	Temp. ratio, %	Lw Casing, dBA	Energy efficiency (Ecodesing)	AHS Average, kWh/y
Smarty 2R V	C3	0.06	0.04	0.47	76.6	49	B	4192
Smarty 2R V Plus	C3	0.07	0.05	0.50	75.9	48	B	4170

Smarty HRU are one of the first ranges certified by Eurovent Residential Air Handling Units program.
